

Artwork

Customers supplying artwork

If you wish to supply us with digital artwork for your order, please read the guidelines below:

You can email to:

irj@elliottmarshall.com or mrc@elliottmarshall.com for any of the following types of work.

Cut vinyl lettering * Contour cut decals * Gerber Edge printing
Engraving * Routing

For these options, you will need to create vector based artwork and save as one of the following file types:

CorelDraw(cdr) upto version X4 * Adobe PDF

Adobe Illustrator(ai) * Encapsulated Postscript(eps)

Where possible, please convert fonts to curves/outlines, or supply the fonts for us to install.

Are you supplying artwork for digital printing?

This could be for posters, banners, vehicles or displays. If so, the following file types can be used:

TIFF file format (.tif) - high resolution, min 300dpi*

JPEG file format (.jpg) - high resolution, min 300dpi*

Photoshop files (.psd) - high resolution, min 300dpi*

Adobe PDF

Encapsulated Postscript (.eps)

Quark Express (upto version 5)

All artwork of these types should be set as 'CMYK', either at size, or scale (eg. 50%)

*Low resolution files can be used for visual layouts

All digital forms of artwork must be supplied ready for PC use only.
